INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of New Orleans Building Corporation

I have audited the accompanying statement of financial position of New Orleans Building Corporation (a nonprofit organization) as of December 31, 2002, and the related statement of activities for the year then ended. These financial statements are the responsibility of the Organization's management. My responsibility is to express an opinion on these financial statements based on my audit.

Except as discussed in the following paragraph, I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

Significant third party documentation did not exist with respect to the recorded amounts for property, plant and equipment acquired in the acquisition of the New Orleans Union Passenger Terminal (NOUPT) described at Note B. Accordingly, I am unable to extend my audit of such property, plant and equipment, depreciation expense and accumulated depreciation for these assets beyond the recorded amounts.

The Organization did not present a statement of cash flows for the year ended December 31, 2002. Generally accepted principles require that such a statement be presented when financial statements purport to present financial position and results of operations.

In my opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had the recorded amounts for property, plant and equipment, depreciation expense and accumulated depreciation referred to above been susceptible to satisfactory audit tests, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of New Orleans Building Corporation as of December 31, 2002 and the changes in its net assets for the year then ended in conformity with accounting principles generally accepted in the United States of America.

financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of my audit.

My audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying schedules on pages 12 and 13 are presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

New Orleans Building Corporation Notes to Financial Statements

Note A - Nature of Activities and Summary of Significant Accounting Policies

Nature of Activities

The New Orleans Building Corporation (NOBC) is a non-profit, public benefit corporation, incorporated in the state of Louisiana on May 4, 2000. The Corporation was formed for the purpose of owning, leasing, developing and operating properties owned by the City of New Orleans or by the Corporation. These purposes include, but are not limited to planning, renovating, constructing, leasing, subleasing, managing and promoting such properties, which activity is declared to constitute a public purpose.

Basis of Accounting

The financial statements of the NOBC have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables and other liabilities.

Basis of Presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards of Not-for-Profit Organizations. Under SFAS No. 117, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The Organization had no permanently restricted net assets at December 31, 2002.

Uses of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Property and Equipment

Acquisitions of property and equipment in excess of \$500 are capitalized. Property and equipment are carried at cost or, if donated, at the approximate fair value at the date of donation. Depreciation is computed using primarily the straight-line method.

Revenue Recognition

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions.

New Orleans Building Corporation Notes to Financial Statements

Income Taxes

NOBC was organized as an exempt corporation under the provisions of section 501(c)(3) and 170(c)(2)(B) of the Internal Revenue Code of 1986, as amended.

Cash and Cash Equivalents

Cash and cash equivalents include all monies in banks and highly liquid investments with maturity dates of less than three months. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

Note B - Major Acquisition

Background

On May 25, 2002, the New Orleans Building Corporation assumed control of the New Orleans Union Passenger Terminal (NOUPT) located in downtown New Orleans.

The NOUPT was created by the State of Louisiana to enable the City of New Orleans to form a unique partnership with private railroads to finance, build and operate the facility. The City acquired the sixty-acre downtown site and transferred use of it to the NOUPT until 2004 with an option to extend for another 50 years. With this arrangement in place, the railroads provided revenue bond financing for construction of a \$21-million terminal and support facility on the downtown site. The NOUPT began service in 1954, consolidating 30 weekly train arrivals and departures at five, widely scattered stations into the new downtown terminal. The City also granted the NOUPT the use of six miles of grade separated right-ofway created by city, state, federal and private railroad funding, in excess of \$19 million, to eliminate time consuming and hazardous grade-crossings over the tracks servicing the NOUPT. In 1977, the City and private railroads transferred passenger rail operating responsibility of the NOUPT to the National Railroad Passenger Corporation-Amtrak. The City continued other aspects of its partnership agreement with the private railroads constituting the NOUPT prior to Amtrak's assumption of national passenger service from these railroads in the 1970's. The result was a unique governing body for the NOUPT consisting of a committee composed of representatives of the City, Public Belt Railroad Company, Amtrak and several railroads. The activities of the NOUPT are classified as temporarily restricted.

Nature of Operations

The NOUPT has several lease agreements with various tenants. The two major tenants located at the NOUPT facility are the National Railroad Passenger Corporation-Amtrak and Greyhound Lines Incorporated. Revenues derived from these leases are either fixed monthly amounts, variable monthly amounts based on tenant revenue or a combination of both. Additionally, the facility derives revenue pursuant to right of way leases with several communication companies. Finally, some tenants are responsible for sharing in a portion of the facility's operating costs.

New Orleans Building Corporation Notes to Financial Statements

Note C - Cash

The total cash held by NOBC at December 31, 2002, includes \$65,117 in monies that are not covered by insurance provided by the federal government. It is the opinion of management that the solvency of the referenced financial institution is not of particular concern at this time.

Note D - Operating Leases

The Organization leases certain office equipment under a five year operating lease. As of December 31, 2002, the total remaining operating lease payments under this noncancelable lease are as follows:

| Year | Amount |
|-------|-----------------|
| 2003 | \$ 3,590 |
| 2004 | 3,590 |
| 2005 | 3,590 |
| 2006 | <u>1,795</u> |
| Total | <u>\$12,565</u> |

Rental expense under the operating lease was \$4,428 for the year ended December 31, 2002.

Note E - Functional Allocation of Expenses

The costs of providing the various programs and activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors of New Orleans Building Corporation

I have audited the financial statements of New Orleans Building Corporation (a nonprofit organization) as of and for the year ended December 31, 2002, and have issued my report thereon dated June 25, 2003. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As a part of obtaining reasonable assurance about whether New Orleans Building Corporation's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Internal Control over Financial Reporting

In planning and performing my audit, I considered New Orleans Building Corporation's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operations that I consider to be material weaknesses.

This report is intended for the information and use of the audit committee, management, federal awarding agencies, State Legislative Auditor and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
